

St Luke's HOSPITAL

Our Community Hospital

Your Gracious Support can help

My name is Janet.

I am 38, a school teacher.

Last September, doctors removed a huge cancerous tumour that had wrapped itself round my left leg.

I asked to be sent to St Luke's for recovery and physiotherapy.

Here in St Luke's I discovered a bright, cheery hospital with staff, all of whom evidently enjoy their work. Moreover, I could see the love; their love which showed in the way they interacted with all the patients.

You too can show your love and goodwill by contributing to enable St Luke's to continue this work in Singapore.

Help make St Luke's Hospital possible.

Fill in the attached contribution form, and send in your gift immediately.
